PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with a strong specialization in backend engineering and scalable system design. Experienced in building modern, high-performance web applications using the MERN stack (MongoDB, Express.js, React, Node.js) and Python. Passionate about solving real-world problems through clean, efficient code and innovative solutions. Seeking an internship or junior developer role to contribute technical expertise while growing in a collaborative environment.

EXPERIENCE

Co-Founder & Lead Mentor— Developers Club

05/2025 – Present

- Founded and led a fast-growing student developer community focused on innovation, collaboration, and skill development.
- Organized coding workshops, mentorship programs, and technical sessions.
- Mentored and engaged 100+ students from diverse academic backgrounds.
- Built a strong learning culture promoting teamwork and practical development skills.

PROJECTS

Digital Heritage Vault

🔗 [https://digital-heritage-vault.vercel.app/]

- Developed a modern digital platform for preserving and exploring cultural heritage.
- Designed scalable backend architecture and interactive frontend experiences.
- Focused on performance, usability, and immersive user interaction.

EDUCATION

Bachelor of Science in Computer Science**

Ambo University

10/2023 – 04/2027

TECHNICAL SKILLS

Category	Technologies
Backend Development	Node.js, Express.js, Python
Frontend Development	HTML, CSS, JavaScript, React.js, Tailwind CSS
Databases	MongoDB, MySQL, PostgreSQL
Tools & Technologies	Git, GitHub, VS Code, Postman, Figma

CORE STRENGTHS

- Strong backend architecture and API development
- Problem-solving and analytical thinking
- Clean code and scalable system design
- Team collaboration and leadership
- Fast learner with high adaptability

ADDITIONAL HIGHLIGHT

💡 Full-Stack Developer with a strong backend focus, building efficient, scalable, and real-world applications that solve meaningful problems.
